ADDENDUM NO. 2

Date: April 30, 2015

Invitation to Bid 15-0212

Upgrade Thermostats at Various County Buildings

It is the vendor's responsibility to ensure their receipt of all addenda, and to clearly acknowledge all addenda within their initial bid response. Acknowledgement may be confirmed either by inclusion of a signed copy of this addendum with the initial bid response, or by completion and return of the addendum acknowledgement section of the solicitation. Failure to acknowledge each addendum may prevent the bid from being considered for award.

This addendum DOES NOT change the date for receipt of bids or proposals.

The purpose of this addendum is to provide confirming information, and answers to various vendor questions, resulting from the non-mandatory pre-bid conference held April 29, 2015. **The current due date remains in effect unless specifically changed via formal addenda.** A copy of the attendee list for the pre-bid conference has been posted to the County website for the above-cited Invitation to Bid.

The pre-bid conference commenced with the following general matters being reviewed and confirmed:

1. bids are due May 13, 2015 at 3:00 PM.
2. award will be made to the single lowest priced, responsive, and responsible bidder.
3. that the pre-bid conference was non-mandatory in nature.
4. that bonding is not required.
5. the completion intervals stated the ITB (60 calendar days).

6. ITB sections 1.13 regarding delivery and content of bid responses.
7. ITB provision regarding alternate product
8. the Facilities Terms and Conditions at ITB Attachment 3.
9. the need to acknowledge addenda.

County staff then confirmed that the estimate cited in addendum 1 was understated and should have read “below \$50,000” as a total of nine (9) thermostats were to be installed (four at the Umatilla Community Center, four at the Marion Baysinger Library, and one at the Fairgrounds Expo Building.

County staff specifically confirmed and reviewed federal requirements (such as Davis-Bacon Act, Buy America Act, E-Verify) associated with the grant-funding for the project, and pointed out the selected vendor would have to comply with all grant requirements (copy of the grant at attachment 7 of the ITB).

The County also specifically confirmed that the contract required a full turnkey effort to include any coordination required with the manufacturer of the environmental control systems within the buildings to be serviced (Honeywell).

There were no further technical questions from the attending vendors. None of the vendors confirmed an immediate need for site visits. Vendors that have a subsequent need in this regard are to contact Mr. John Bringard (352-253-4974).
